**Summer Opportunities for Students Interested in Medicine and Other Health Careers**

There are a host of summer opportunities available in the Boston area, throughout the U.S., and internationally. The Summer Planning & Funding team at OCS is here to help with your summer plans. The Premedical and Health Careers Advising team is also happy to help you think through options. As you begin your search, here is a non-inclusive list of some of the funding options and options for funded opportunities through Harvard and beyond that may be of interest to you. There are many options beyond health care and biomedical sciences that may be of interest to you as well, but we have not included those on this list. Remember to check Crimson Careers frequently, since new postings come in daily. Finally, there are several organizations not listed below that have participated in the [OCS Summer Programs & Funding Fair](https://ocs.harvard.edu/events/fundingfairevents) (December 7, 2018) in the past who have summer opportunities in health care—Health Advances; HealthLeads; and Hole in the Wall Gang Camp.

Please remember that all these deadlines are subject to change, so make sure to confirm these dates on the program websites.
